FIRST CHOICE FOR QUALITY INDUSTRIAL ASPHALT PRODUCTS

Diversified Experience

High Quality

Responsive Service

Quick Delivery

Research & Development

Technical Services

Diversified Experience — For more than 80 years, Atlas has been manufacturing specialty asphalt products to an ever-growing list of O.E.M. clients. We put our vast experience to work to meet your specific needs.

High Quality — From raw material to finished product, we maintain stringent quality control over every step of the production process. Quality controllers identify every manufactured batch of asphalt and samples are retained for future reference. Atlas is the first ISO certified asphalt plant in the U.S.

Responsive Service — Friendly Atlas representatives process orders quickly and efficiently assuring you get the product you need when you want it.

Quick Delivery — Our asphalt-specialties plant is located with convenient access to major highways and rail services, enabling our bulk and packaged products to be dispatched rapidly.

Research & Development — For customized manufacturing requirements, a research and development laboratory is available to develop special formulations.

Technical Services — Atlas' technical services department is available to assist with product selection, provide answers to technical questions and assist on site.

YOUR SPECIAL NEEDS ARE OUR STANDARD PRODUCTS

Atlas Minerals & Chemicals, Inc., founded in 1892, has supplied industry with specialty asphalts since 1910. Additional oxidizing and blending facilities were added in 1957.

Our custom-packaging equipment for asphalts includes drum packaging, ingot casting for filled products, and extrusion processes. A variety of base fluxes, resins, modifiers, waxes and fillers provides Atlas with the ability to custom-oxidize and blend highly specialized asphalt-based products for our customers' needs.

In-house testing by trained asphalt specialists in our quality control lab along with our in-plant oxidizing technicians, assures quality control from initial conception and development of a custom product through manufacture and shipment.

Typical products we can supply include:

- Potting compounds, filled and unfilled
- Shingle laminants
- Culvert coatings
- Ink concentrates
- Cable saturants and coatings
- Joint and crack fillers
- Battery sealants
- Polymer modified asphalt
- Paper and tape laminants
- Waterproofing

Additional benefits you receive with Atlas Industrial Asphalt Specialties:

- Certification for all material
- Quality control numbers printed on all cartons with lab retentions held for one year
- Raw materials have low sulfur content and no catalysts are used in the oxidation process

For more information on how Atlas can meet your specialty asphalt needs, write, call or e-mail today.

The logo for Atlas Minerals & Chemicals, Inc. features the word "atlas" in a bold, lowercase, sans-serif font. The letters are a vibrant orange-red color. The 'a' and 't' are connected, and the 's' has a distinctive shape with a curved bottom.
